

**METHOD, SYSTEM AND PROGRAM PRODUCT FOR PROVIDING AN  
ELECTRONIC ORDER CONFIRMATION IN AN ELECTRONIC TRANSACTION**

**ABSTRACT OF THE DISCLOSURE**

An electronic order confirmation for a made-to-order or out-of-stock item in an  
5 electronic transaction is provided to a public electronic environment (e.g., a browser on a  
global computer network) from a private electronic environment (e.g., an ERP application on  
a private computer network) by electronically receiving a sales order in a private electronic  
environment from a purchaser in a public electronic environment; obtaining an electronic  
order confirmation, including an entitled price and an estimated date of delivery for the item,  
10 within the private electronic environment while the purchaser waits; and automatically  
returning the electronic order confirmation from the private electronic environment to the  
public electronic environment for providing to the purchaser.
